Delivering on the UN Secretary-General's upcoming Action Agenda on Internal Displacement:
Making the Key Shifts a Reality for Data Collection, Analysis and Use
Delivering on the UN Secretary-General’s upcoming Action Agenda on Internal Displacement:
Making the Key Shifts a Reality for Data Collection, Analysis and Use

AGENDA

1.00 PM  |  WELCOME NOTE
1.20 PM  |  KEYNOTE
1.30 PM  |  TRANSFORMING DATA INTO ACTION: THE POSITIVE CHANGES WE ALREADY SEE
1.55 PM  |  LIGHTNING TALKS: KEY SHIFTS, FORWARD-LOOKING SOLUTIONS, AND WHAT’S NEXT

Followed by a Q&A and interactive discussion, with space for brief contributions from attendees.

2.50 PM  |  CLOSING REMARKS
Delivering on the UN Secretary-General’s upcoming Action Agenda on Internal Displacement: Making the Key Shifts a Reality for Data Collection, Analysis and Use

WHO WE ARE
Developing capacities of national and local governments, humanitarian and development partners, and other key stakeholders to apply global standards and to own and effectively use displacement data.

Facilitating collective data efforts at country level through profiling exercises, strategic advice, and application of tested tools and approaches.

Shaping global practice and standards through quality training, tools and guidance, and by contributing to global initiatives and discussions from our diverse and rich experience.
Delivering on the UN Secretary-General’s upcoming Action Agenda on Internal Displacement: Making the Key Shifts a Reality for Data Collection, Analysis and Use

Co-hosted by:

OUR IMPACT
A fit-for-purpose model

With 13+ years of proof of concept on establishing and sustaining collaborative processes on Displacement data

UPCOMING 2023

Development of a return-on-investment measure
HOW WE KNOW

JIPS IS A FIT-FOR-PURPOSE MODEL

Perceived as an impartial actor and honest broker striving to achieve consensus around issues of displacement data

Widely acknowledged and respected technical expertise

Systematic adoption of a collaborative and consultative approach

Unique role at the intersection between the humanitarian and development communities
42 collaborative profiling platforms established in-country – 33 of which engaged Government authorities and National Statistical Offices alongside UN agencies, international and local organisations, academia and other actors.

1 in 2 countries we supported in the past have requested follow up – demonstrating sustained political will and interest in JIPS’ continued support, highlighting the fact that the collaborative processes we establish outlive the individual profiling exercises.

300+ Benefitted from capacity building activities incl. remote training tailored to country/regional contexts, peer-to-peer learning, and in-depth training on the profiling coordination process.

5+ National Development Plans and Strategies on Durable Solutions directly informed by profiling processes.

20 National Statistical Offices engaged.
ACHIEVEMENTS AGAINST OUR STRATEGY 2021-2022
Delivering on the UN Secretary-General’s upcoming Action Agenda on Internal Displacement: Making the Key Shifts a Reality for Data Collection, Analysis and Use

Co-hosted by:

Enabling nationally-owned evidence on displacement

Enabling collective and responsible efforts on displacement data

Enabling the effective use of displacement data in policies and programmes

Leveraging communities and the wider context in data for solutions

National and local government and NSOs working in contexts of internal displacement

Governments, UN agencies, civil society, private sector, academia, and donors

Displacement-affected communities, the wider society, and the local context

Decision makers in government, UN agencies, and civil society

From data to actions for solutions

GOAL 1

GOAL 2

GOAL 3

GOAL 4
KEY SHIFT 1

Political Will and National Ownership
KEY MESSAGE

Collaborative data processes are a first critical step towards fostering national ownership and achieving Durable Solutions to displacement.
KEY MESSAGE

Effectively implementing international standards requires capacity building and a whole-of-government approach.
Enabling government-led data production

Developing government capacity to apply global standards

Connecting governments with other key actors

Making knowledge on best practices & global standards accessible

Government-led profiling exercises in Sudan, Philippines, Mexico, Burundi

Nationally-owned data production and IDP Statistics:
- At country level: Somalia, Ukraine
- At regional level: ECOWAS, IGAD, SICA
- (more than 20 NSOs involved)
- EGRISS – SG2 is jointly promoting a collaborative approach to capacity support
- Peer-to-peer implemented
- EGRISS E-Learning

Provincial, national and global event on the profiling exercise in the Philippines

Regional Advisors EAGL, Americas, WA

Digital information products to disseminate global standards and best practice, including the IRIS

JIPS conference on nationally owned data

© JIPS
KEY SHIFT 2
Whole-of-Society and Communities’ Agency
Affected communities need to be engaged as agents in efforts towards Solutions, including in the data and analysis that inform the policies and programmes that affect them.
A more nuanced approach to Durable Solutions is needed
<table>

KEY SHIFT 3

Collective humanitarian, development and peace results
Area-based approaches can enable joint HDP efforts towards effective solutions
Enabling collective and responsible efforts on displacement data

Jointly producing and leveraging data through inclusive processes

Developing capacity to enable collaboration

Enabling data users to establish safe, ethical, and effective data processes

Profiling exercises to provide technical and collaboration support

Measuring progress towards durable solutions

Global policy and peer-to-peer networks

UPCOMING 2023

Pilot and Launch of the Collaborative Leadership Program

Advanced data science methods for data and analysis sharing

Online Prototype on the Use of Privacy Preserving Technologies

 Contributing to the IASC Operational Guidance on Data Responsibility in Humanitarian Action

Co-authoring a Guidance Note on Data Ecosystem Mapping with the OCHA Centre for Humanitarian Data
Enabling the effective use of displacement data in policies and programmes

Improving pathways for data use by decision-makers to inform policy and programming on internal displacement

17 Action Plans developed including over 240 participants from the communities, civil society, Government, and international community

Research project on communicating uncertainty and data to decision-makers in displacement contexts
